EXAMINER INTERVIEW SUMMARY

Sir:

The Applicants hereby submit a summary of the Examiner Interview dated June 25, 2009,

Examiner Interview Summary Record begins on page 2 of this paper.

EXAMINER INTERVIEW SUMMARY RECORD

The Applicants wish to thank Examiner Shin and Examiner's supervisor, Tonia L. Dollinger, for their time and feedback during the interview conducted on June 25, 2009. Claims 1 and 26 were discussed in light of the cited Zappala reference and its lack of teaching of storing computed latency in an accounting parameter because Zappala cannot support billing functionality due to a requirement of discarding user identifiable information to preserve user privacy. In light of the foregoing, an agreement was reached that all claims would be allowable via an Examiner's amendment to claims 1 and 26 specifying that the server processing the latency bills the user based on a predetermined quality of service "promised to the user."

Applicants respectfully submit that the patent application is in condition for allowance. If, in the opinion of the Examiner, a telephone conference would expedite the prosecution of the subject application, the Examiner is invited to call the undersigned attorney.

Respectfully submitted,
